Welcome to

BOURNE CiCLE FESTIVAL 2019

The first ever Bourne CiCLE Festival will be taking place in and around Bourne on 31st August - 1st September 2019. South Kesteven District Council is delighted to announce its inaugural cycling festival with the aim that this becomes an annual event. There will be something taking place over the weekend for everyone to enjoy, either watching world class racing, taking part in a Sportive, volunteering as a 'race maker' or just enjoying a great spectacular! In Bourne there will be an 'event centre' featuring some amazing cycling demonstrations, displays, trade stands and food stalls.

Event planning aims to keep inconvenience to a minimum with a single road closure on West Street, Bourne on Saturday & Sunday. During the races there will be rolling road closures along the route and it will mean the suspension of parking in some areas just for the duration of each race. We have planned the route so inconvenience is kept to a minimum and enjoyment to the maximum.

This event provides a great opportunity for Bourne and the district to benefit from visitors coming into the area. It's also an opportunity for villages and communities along the route to get together perhaps for a street party or

picnic - and decorate their section of the route in the festival yellow. Think Tour of Yorkshire!

The event website will be regularly updated with race details, timings, any route changes, entertainment & activities in Bourne. It will also carry details of events along the route and best viewing point (which might be over your garden gate!).
